

Tree Maintenance Request on Trails

05/13/2025 10:27 am EDT

An MOU between CRPD and Metro Parks was signed May 2, 2022 which outlines which entity takes care of the specific needs of Greenway System Trails.

If the fallen tree is near a park, oftentimes Forestry will accept responsibility for the removal. Otherwise, Metro Parks is responsible for day-to-day operations and maintenance of the trails including minor hard surface repairs, minor drainage issues associated with hard surfaces, mowing, pruning, tree obstruction removal, snow removal, litter removal, signage improvements consistent with established signage specifications, procurement and installation, removing graffiti and similar types of vandalism, and other routine maintenance items.
